Adopt - a - Space Program

Farmers' Market

Examples of adopted spaces in Newton

Areas in need of care include: curbed traffic islands in roadway intersections, sidewalk plant beds and seating areas in the village centers, public building and school grounds, and, as well, the smaller neighborhood parks.

- If you or your neighborhood group does a seasonal cleanup, Parks and Recreation will remove the debris.
- If you or your neighborhood group is willing to spread mulch, we will deliver it to the site.

What is Adopt-a-Space:

- The Adopt-a-Space program is an innovative way for business, community groups, or individuals to provide financial support for the refurbishment and maintenance of Newton's greenspaces. The program recognizes your contribution by placing appropriate signage in the park or facility.

This program:

- Fosters environmental stewardship and community spirit.
- The program recruits volunteers willing and able to make a commitment to provide site improvements and landscape maintenance for the City's public spaces.

For more information contact
Schein at the Parks and Rec
Department:

617-796-1501

We also provide advice on low-maintenance plant design and appropriate plant selection for public landscapes. A multi-year commitment to the program is preferred.
